book-collecting](http://researchguides.case.edu/book-collecting)**
for submission guidelines

“A collection should reflect a clearly defined unifying theme or interest. It may incorporate ephemera, maps, prints, autograph material as well as books, either hard cover or paperback, as long as they are germane to the collection’s focus. How well a collection reflects the collector’s intent is more significant than either the number of items or the monetary value of the collection.”

-National Book Collecting Contest guidelines
