Math & Science Majors

Challenging times call for New Kinds of Teachers

Consider Pursuing a Teaching Career While Studying at CWRU

The NOYCE Program
- For CWRU students majoring in Biology, Chemistry, Mathematics or Physics.
- Explore a teaching career through a four week summer internship at a local high school. There is no further obligation.

The Noyce Scholarship
- NOYCE is a national program funded by the National Science Foundation whose goal is to train highly competent secondary teachers in the STEM fields to teach in high needs schools. CWRU Scholars will receive $15,000 for each of their junior and senior years. The program features early and extended mentoring and extensive field experience.

Application Information
- Application information can be found on the Teacher Education website at www.cwru.edu/artsci/teachlic

Deadline
- March 18, 2011
