REU Research Experience for Undergraduates in Chemistry at the University of Kentucky

Our 10 week summer program includes:

Research in a wide variety of areas of chemistry
Educational professional development program

- Tours of local industries
- Opportunity to attend scientific meetings
- Poster session
- Career counseling and mentoring
- Enjoyable social program
- Substantial stipend for the full 10-weeks
- On-campus housing provided
- Relocation costs covered

In addition to a stimulating research atmosphere, students may also participate in activities such as hiking, rock climbing in Red River Gorge, visits to Mammoth Cave, the Kentucky Horse Park and much more.

The deadline for applications is March 1.
